Art Unit: 1634

Since the only substantive rejection remaining in the application involves a reference by the inventive entity plus others and cited under 35 U.S.C. § 102(a), it is deemed that an interview at this point in prosecution would be of minimal value to applicants. Accordingly, the request for an interview (response filed October 26, 2006 (is denied)).

Newly submitted claims 34 and 35 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The methods of claims 1-33 do not require the software systems of claims 34 and 35.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 34 and 35 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The disclosure is objected to because of the following informalities.

- (a) The amendment for page 18, line 5 (response filed October 26, 2006) contains a series of typographical errors. Each occurrence of "15(a)", "15(b)", and "15(c)" should be changed to "14(a)", "14(b)", and "14(c)", respectively.

Appropriate correction is required.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-11, 13-15, 17-25, 27, and 30-33 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Balagurunathan et al (Proceedings of SPIE 4266: 163 (2001)). This rejection is repeated for reasons already of record (*e.g.*, Office action mailed June 26, 2006, page 4, third to last paragraph). The declaration submitted October 26, 2006 by Dr. Dougherty is not sufficient to overcome the rejection because the declaration does not indicate the contributions or roles of either of the authors of the reference who are not inventors (*i.e.* Mr. Bittner or Mr. Trent). The declaration is a mere restatement of the filing declaration and merely presents a conclusion (item 7) rather than facts in connection with the reference. See MPEP 716.10 and *In re Katz* (215 USPQ 14 (CCPA 1982)).

Art Unit: 1634

Claims 12, 16, 26, 28, and 29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
